Video from the last year's ESCA Training Camp

A word from Craig Montvidas, director of the ESCA Training Camp:

Once again, we will have top level instructors at this year's camp, some returnee's, and some new faces. Last year we invited two professional players who served as teachers for our players in either small group or one on one sessions, this proved to be a hit with our young athletes!

By expanding our indoor training facility, we will now have the chance to increase the number of competitive games we play. This will definitely be an advantage for both players and coaches to gain more knowledge under game conditions.

We have also added a number of new evening activities, some Softball oriented and some not. One of last year's camp highlights was seeing both players and coaches communicate and unite into one big Softball family. Our goal is to create that "warm fuzzy feeling" once again!

The "**Shadow Coaches**" will receive additional instruction and more empowerment for teaching and coaching during the week. They will be fully integrated into the program of instruction and provided more opportunities to do some teaching as

well. Some of our former "shadow coaches" have gone on to conduct clinics themselves in various countries. This is something we are extremely proud of!!!

Finally, one area we do not plan on changing that being the theme of "GETTING BETTER TOGETHER".
